

Instructions to display lab results within your AlloCare® app (iOS)

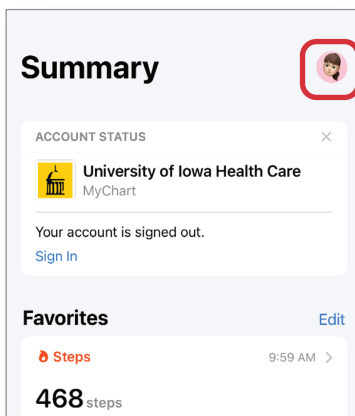

Marilyn W Heart transplant recipient

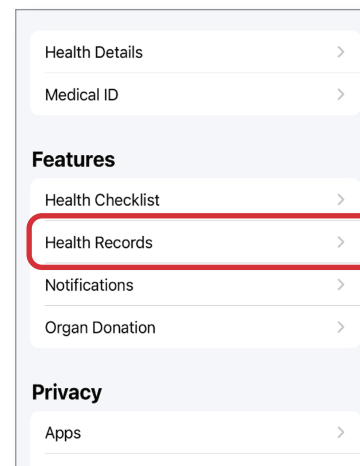

- 1 Be sure you have set up your account for the patient portal at the facility where you have your labs drawn
- 2 Select the **"Health"** app on your phone

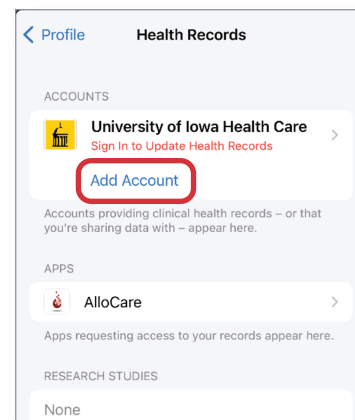

- 3 Select your profile (Below is one example, but typically this is a small picture or icon of a person)

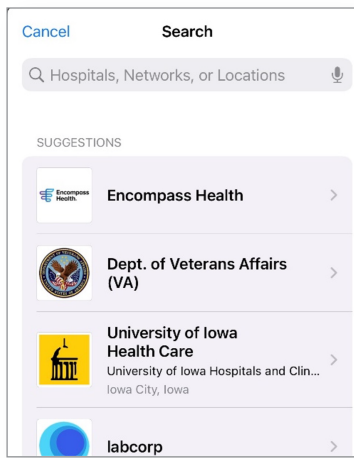

- 4 Select **"Health Records"**

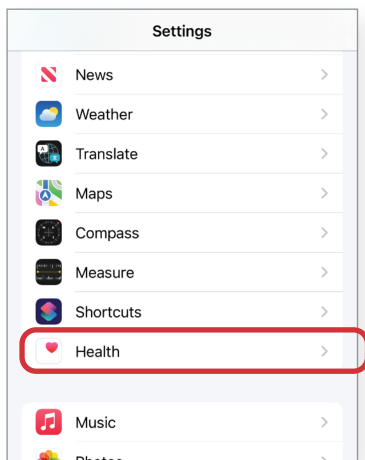

- 5 Select **"Add account"**

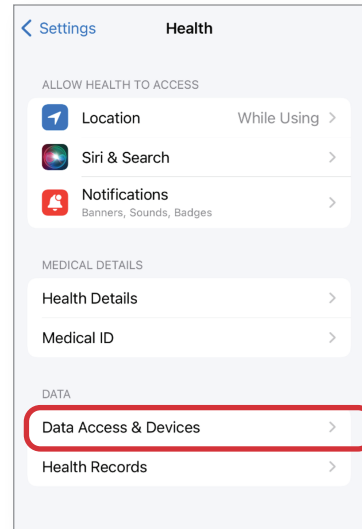

- 6 Use the “**Search**” box to find your health care facility; Once you have found it, select and follow the prompts.

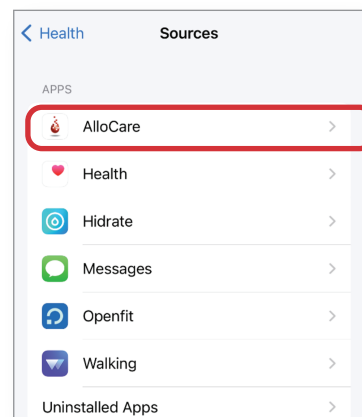

- 7 Be sure the AlloCare app shows in the “**Apps**” list. If it does not, go to settings and select “**Health**.”

- 8 Select “**Data Access and Devices**”

- 9 Select “**AlloCare**”

- 10 Be sure labs and data are turned “**On**,” if not, turn them on.
